

UK Statements of Compliance, Cybersecurity

This statement is valid for all NIBE products used for residential heating and its related accessories.

The product, model number as described in the products name plate.

Produced and developed by:

NIBE AB, Hannabadsvägen 5
285 34 Markaryd
SWEDEN

Fulfills all requirements in the applicable security requirements as defined in schedule 1 of The Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023 (2023 No 1007).

NIBE is dedicated to providing world-class solutions in sustainable energy. To achieve this, we recognize the importance of continuous cybersecurity software updates to ensure the sustainability of our solutions. Our goal is to deliver software updates throughout the entire product lifetime, whenever it is within our control. However, due to external factors, we can only guarantee the provision of security updates for 2 years after the product has been placed on the market. Despite this, we have a history of exceeding customer expectations in terms of support longevity, and we will continue to strive to meet our quality expectations, customer satisfaction, and general cybersecurity position.

The latest version of this statement can be found at nibe.eu.

All product software and security updates can be found at myuplink.com.
